

JOIN THE FIGHT

PLEDGE

Every year, approximately 316 Guam residents are diagnosed with cancer. Statistics have shown that they have been diagnosed at the later stages of cancer and that cancer accounts for nearly 1 in every 5 deaths. That is one person dying from cancer every 2 to 3 days here in our island.*

It is time for Guam Cancer Care and our local community to "JOIN THE FIGHT" against cancer and promote a proactive approach to health.

It is time to affect the mortality and morbidity rate for cancer while living a healthier Guam.

It is time to start a movement and coalition on Guam, to put the FIGHT against cancer on the island's agenda.

It is time to "JOIN THE FIGHT".
